Areas of strength and key recommendations to improve commitments on obesity and population level nutrition

Domain	Tertile	Areas of strength	Key recommendations
STRAT – Corporate nutrition strategy	1		<ul style="list-style-type: none"> • Commit to improve population nutrition and health • Include SMART (specific, measurable, achievable, relevant and time bound) objectives and targets within overarching nutrition strategy • Refer to global priorities within the overarching nutrition strategy e.g. World Health Organization recommendations and Sustainable Development Goals • Refer to relevant priorities in national or regional government policy documents e.g. 'le Programme national nutrition santé (PNNS)' • Link the Key Performance Indicators of senior managers to the overarching nutrition strategy and related objectives and targets • Regularly report on progress towards improving population nutrition, including progress on objectives and targets specific for France
FORM – Product formulation	1		<ul style="list-style-type: none"> • Develop SMART targets to reduce sodium, saturated fat, trans fat, added sugar and portion size across the product portfolio • Adopt an official nutrient profiling system (e.g. Nutri-Score) to classify products for the purpose of reformulation • Disclose policy position regarding reformulation on website
LABEL – Nutrition labelling	1	<ul style="list-style-type: none"> • Provide clear and comprehensive nutritional information for some brands, on a per 100g/ml basis 	<ul style="list-style-type: none"> • Support of and commitment to implement the Nutri-Score • Commit to labelling products with nutrition and health claims only when products are healthy, according to an official nutrient profiling system • Disclose policy position regarding front-of-pack labelling
PROMO – Product and brand promotion	1		<ul style="list-style-type: none"> • Develop a marketing policy that applies to children up to the age of 18 years and that defines a target audience using children's peak viewing times • Commit to not sponsor children's sporting, cultural or other activities using unhealthy brands/products • Commit to not use marketing in settings where children gather using unhealthy brands/products • Commit not to use celebrities, fantasy and animation characters and premium offers in marketing of products to children • Adopt an official nutrient profiling system (e.g. WHO nutrient profiling system, EU-Pledge criteria, Nutri-Score) to classify products for the purpose of promotion to children
ACCESS – Product accessibility	1		<ul style="list-style-type: none"> • Commit to address the price / affordability of healthier products relative to less healthy products • Commit to reduce the availability of unhealthy products and increase the availability of healthy products in settings • Commit to increase the proportion of healthy products within the portfolio • Adopt an official nutrient profiling system to classify products for the purposes of product accessibility • Support the implementation of fiscal policies to make healthier foods relatively cheaper and unhealthy foods relatively more expensive taking into account the growing scientific evidence base
RELAT – Relationships with other organisations	1	<ul style="list-style-type: none"> • Publicly disclose supported professional organisations, active lifestyle programs and involvement in public-private partnerships 	<ul style="list-style-type: none"> • Publicly disclose supported external research and nutrition education programs • Disclose supported active lifestyle programs on own website • Publish support of French industry associations, think tanks, interest groups, community organisations or other organisations that are involved in population nutrition, obesity and NCD issues
OVERALL	1		<ul style="list-style-type: none"> • Actively engage with the BIA-Obesity tool and process
